Subject: Hamilton fake home coming police response
Date: Monday, October 25, 2021 5:24:28 PM

To the Police Board,

As long time residents of Ainslie Wood we were disappointed by the poor response by Hamilton Police Services to unsanctioned street parties compared to similar gatherings at other universities

We would ask the board to read the Ottawa Citizen article in the link below In particular the first photo which shows a large police presence including police from neighboring jurisdictions is very instructive In particular the troop of eight mounted police, the number of officers, and the number of charges laid

HPS needs to review their intelligence gathering, planning and execution to deal with these disruptions As 45 year residents of Ainslie Wood we can tell you from first hand experience that left unchecked this type of behavior only gets worse, never better Failure to deal with problems such as this only ensures larger problems in the future Hamilton's weak response may have saved some money in the budget this year but will prove costly in the long term
