CHAMPIONS OF CHANGE
Annual Awards Gala

2023

SPONSORSHIP

GUIDE

The BTB Champions of Change Awards Gala is to acknowledge and celebrate police service members and community partners who are championing the advancement of mental health and well-being initiatives within their respective Police Service.

Canada BTB strives to bring awareness to the struggles that are faced by our members and their families. This inaugural gala is an extension of the Canada BTB Memorial which remembers officers who have died by suicide. Community heals and with this memorial it is our hope that we honour the fallen and let the healing take place.

So many of our police service members suffer in silence, isolated from the world, feeling helpless, and their families suffer with them. As a national organization, Canada Beyond the Blue and its chapters, have the opportunity to make a difference for Canadian police families across our country and continue to honour our mission of strengthening and supporting police families.

We hope that your organization finds value in our mission and joins us in celebrating these Champions of Change whose perseverance and advocacy embolden the advancement of initiatives that directly support ending the stigma around mental health issues in their workplace.
