Good morning Kristen. I appreciate your quick response. Please place my correspondence on the next public agenda for the Board's consideration.

This morning 8:00AM the traffic signals on Lawrence Road and Mt. Albion Road and all the lights on King Street to access the Red Hill were out. As of 30 Minutes ago they were still out and no Police on point duty for this busy intersection. But they are there now because on an accident which may have been preventable had they been there directing traffic. The two that are there now are standing on the sidewalk with their arms folded across their chests talking, you would think after an accident they would have started directing traffic. What a novel idea.

Sincerely

Terry Lindley

Good morning Terry. Thanks for reaching out to the Board with respect to your concerns.

You mention a few different issues within your email and I can offer you a few options for your consideration.

If you like, I can forward you email on to the Office of the Chief of Police and have someone get in touch with you. If this is something you're interested in please let me know.

If you'd like to make a complaint with respect to the conduct of a police officer you may contact the Law Enforcement Complaints Agency (LECA), an independent civilian oversight agency. They are responsible for receiving, managing and overseeing public complaints about police officer misconduct. Their website is www.leca.ca.

I can also place your correspondence on the next public agenda for the Board's consideration. Your email address will be redacted prior to your correspondence being published. Please let me know if you'd like your email included on an upcoming public Board agenda.

Take care and have a great day.

Regards,
Kirsten Stevenson
Administrative Director,
Hamilton Police Service Board

Good afternoon, Kristen. Our Police Chief saddled the taxpayers of this city with an additional , 214,000,000 boost over his already very expensive budget. Now he wants another 15,000,000 for body cameras to protect them and us, only when it comes to us, if one of his employees misbehaves under Ontario's privacy laws they not us get to decide who sees the video, Some of these Officers have already cost us 8.89 million dollars while they stayed home with pay and no one knows what the disposition of their case were. When we break the law everyone knows and it doesn't take an average of 818 days to investigate.

Parking areas in our neighborhood:

Park at Lawrence Road & King Street
Cemetary across from King East Station
St. Joseph's Park around the corner from King East Station on Nash Road-speed camera
Officers too busy to enforce speed limit
Loebs parking lot Lawrence Road & Gage Ave
Gage Park
Red Hill Valley behind Rosedale Arena

Lawrence Road is post 50KPH. City did a speed test, and a Police Officer came to my house and told my Wife and I that the average speed on Lawrence Road was 70KPH-so much for digital signs and community safety zones-no enforcement

Lawrence Road from King Street to the brickyard is no heavy truck zone and it is posted. The truck keep coming-no enforcement, if fact the Police follow them.

A couple of week ago, there was knock at my door, it was neighbor informing me that a

woman was going from house to house going in people's yards and that he was **TRYING** **to** contact the Police. I went in the house to check our doorbell camera and sure enough there she was. I called the East End Station(2:PM) no answer. Called Central Station, they put me through to the East End Station and someone said they would put me through to dispatch-no answer. Called my Council person and was told they would make a call and have someone get in contact with us-still waiting guess not important.

So, when this Police Chief gets his overpriced force under control and cars back on the street instead of parked all over the City and a hell of a lot more transparency instead of hiding behind Ontario's privacy laws

this Department should not see one more dollar of our money. Suspended Police Officers In Ontario have cost the taxpayers and you are one over 130 million dollars, who do these people think they are. There is nothing better than the Police in investigating Police. Oh, and by the way, the last Officer to be dismissed and it only took 3 years was give 7 days to decide to resign or be fired. You got to love it.

Terry Lindley
