EXECUTIVE SUMMARY

- Hamilton Police Service (HPS) Traffic Safety Strategy focuses on traffic and public safety through proactive traffic management, collision investigation, high visibility, education, awareness, and enforcement.
- HPS works closely with the City of Hamilton, Ministry of Transportation, and neighboring police agencies on the Vision Zero strategy aiming for zero deaths on roadways. HPS also provides key messaging and presentations to the public and stakeholders.
- HPS is a member of the Hamilton Strategic Road Safety Committee, which emphasizes a city-wide focus on traffic initiatives and road safety. Stakeholders, including the police, city traffic, and public health, share responsibility and work collaboratively toward traffic safety goals.
- HPS uses a data-driven approach to road safety, targeting major causes of fatal collisions such as stunt driving, impaired driving, and distracted driving. By focusing on these key offences through targeted enforcement, HPS aims to reduce major collisions and decrease the risks associated with these dangerous behaviors in the City of Hamilton.
- To address these dangerous behaviours, HPS issued 324 stunt driving Part 3s in 2024, an 84.1% increase compared to 2023.

Vision: To be a trusted partner in delivering public safety.

Mission: To serve and protect in partnership with our communities.

Our Values: Compassionate, Dedicated, Inclusivity, Professionalism, Collaboration

- HPS has three fully trained Commercial Motor Vehicle Inspectors who issued a total of 1,026 PONs and Part 3s related to commercial motor vehicle infractions.
- The attached appendices will detail the statistical results of major traffic-related events from 2024, including PONs and Part 3s issued, collisions, fatalities, alcohol-related offences, and RIDE.
